### TO OUR VISITORS.

The Egyptian Bazette has much pleasure in presenting to its subscribers the secompanying description of some of the many interesting
routes by which they may travel homewards.
Great care has been taken to arrange them as
accurately and concisely as possible, and it
will be found that none of them are fraught
with difficulty. In choosing the route home
there are several things to be considered. To
begin with there is the difference in climate
hatween Egypt and the various points at which
you may arrive in Europe.

MOVE

This depends partly upon the month in which you leave Egypt, for Cairo in January may be a little warmer than the Riviera, and possibly not so warm as Sicily, but in March it will be warmer than Rome, and more uniformly warm than many other places in Europe Many people leave Egypt far too early in the year, for as a rule the weather in April and May is perfect. The warmest place to go to on leaving Egypt is Sicily.

Some will want to take into consideration the number of days to be spent at sea, and we therefore subjoin a list showing the time occupied on each of the various routes between Egypt and the Continent of Europe.

### SICILY.

The direct route to Sicily, is by the Florio-Rubattine Co.'s steamers which leave Alexandria weekly for MESSINA, where one takes train to TAORMINA, one of the most charming and popular places on the island. Giardini is the station at which to alight, and the drive up to Taormina is most delightful, occupying about one hour. In and around the town is much to interest the visitor. The theatre is of Greek origin, but restored under the Romans. CATANIA is the starting place for the ascent of Etna and here also is a fine Cathedral. The Greek, Roman, and Saracenic remains that are found all over the island, are an endless sources of pleasure. SYRACUSE has an interesting history, having been a Greek city, which was designed by Demosthenes in S.c. 413, and taken by the Romans in no. 212, when Archimedes was slain—his tomb is to be seen. The cathedral was once an ancient pagan temple. PALERMO, with about 300,000 inhabitants, is the capital of the Island, and enjoys a delightful climate. Much of interest is to be found in this fine city. The Palazzo Reals is of Saracenic origin and close to it the church of S. Giovannia degli Eremit with its picturesque cloisters. The Cathedral, Museum, Botanic Gardens, Villa Giulia and Royal Park are also worth a visit.

### CENTRAL ITALY.

CENTRAL ITALY.

The fine steamers of the North German Lloyd leave Alexandria every Wednesday during the season for Naples, the voyage being only 3 days.

NAPLES is also reached in 10 hours from Palermo by the Florio-Rubattino Co.'s steamers, which leave daily. One cannot approach Naples or leave it without wishing to explore some of its islands, besides the lovely places on its besy—Castellamare and Serrento. The small steamer that takes you to Sorrento [you can drive too] will take you on to Capri.

From Naples to ROME is a train journey of but five hours. All who can will devote at least one week to visiting the many historical and interesting portions of the Eternal City, whose charms and beauties are too well-known to need comment here.

Leaving the Eternal City with mach regret, a railway journey of five hours brings yeu to FLORENCE, where another week can well be spent admiring the City of Flowers and its surrounding country. In Florence itself the churches and galleries are of absorbing interest, whilst the local promenades and excursions should not be omitted. The Cascine is the most attractive and fashionable promenade in Florence, whilst the Viale dei Colli, one of the finest walks in Europe, opened 35 years ago, goes winding up through the hills a distance of four miles. The most delightful excursion outside Florence is that the Vallombroa, with its Monastery 3,300 feet above the sea level. This is made first by ordinary train from Florence to St. Ellero, thence by cogwheel railway to Saltino. The ascent through groves of oaks takes an hour, and most striking panoramas are unfolded to view.

PISA is easily reached from Florence in about 2 hours; here there is a fine Cathedral and the Leaning Tower. A stay of at least one night should if possible be made, in order to enjoy the view from the Campanile at sunset.

VIAREGGIO. One of the most delightful places on the Italian Riviera near Pisa and on the main line from Rome to Genca. It is a very convenient half-way house between Egypt and England, and whe

surrounding mountains and the Mediterranean in summer.

The patriarchal home of Italy's most ancient nobility, whose palaces, gardens, and famous collections of statuary, freezoes, and paintings, are a constant delight to thousands of travellers who annually sojourn in Genoa. Then there are the superbly decorated medical churches containing exquisite columns and historical paintings, and comparable Campo. Santo filled with its wonderful tombs.

From Genoa to Milan is a matter of only three hours by rail.

From Genoa to the following three hours by rail.

MILAN is a good centre for Northern Italy before making the ton of the Lakes. The Cathedral is the principal attraction, with its beautiful windows illustrating the History of beautiful windows illustrating the History of the monu-

The steamers, of the P. & O. North German Lloyd, Orient and Messageries Maritimes are the largest. The Anchor, British India, and Bibby Lines are also, excellent, and their steamers are largely patronised by travellers to Egypt.

As regards the train journeys from Cairo, the shortest is that to Alexandris, without change (3 hours). That to Port Said, can now be made without change in 44 hours.

The least expensive way to England is by the Moss, Papayanni, Prince, and Westcott fines of steamers from Alexandria & Liverpool. The German Levant line has also good steamers from Alexandria to Hamburg. The most expensive but quickest through Continental routes are by P. & O. Brindis express from Port Said, and the Austrian Lloyd Trieste Vienna express from Alexandria. As regards heavy luggage, it must be borne in mind that very little luggage is allowed free on the railways of Europe, but there are several good and responsible forwarding agents in Egypt, who undertake at a fixed charge to deliver packages to any address in Europe.

VENICE is a 5 hours journey by rail from Milan, and one of the most delightful places imaginable to pass a quiet stay. The total absence of vehicular traffic strikes one as very strange; no horse, cart, carriage or bioycle is to be seen, and yet there is the sound of life at every turn. The approach to Venice from the Adriatic is unlike that of any other seaport. The town seems to be gradually, like Aphrodite, born of the sea, no hills behind, no stretches of rock, but first the tops of Campaniles appear above the horizon, then slowly the whole glittering town rises like a fairy mirage out of the calm lagoon.

Going northwards from Milan you make the tour of the beautiful Italian lakes.

COMO, the birthplace of the younger Pliny, is reached in one-and-a-quarter hours by train by way of Monza:

Boats leave Como frequently for the other towns on the lake, which is very beautiful, and the scenery on either side going up the lake is most enchanting. CERNOBBIO is a charming spot.; then come Tremezzo, Cadenubbia, and Menaggio with the prettily-situated town of Bellaggio opposite. The walk from Tremezzo along the shore of the lake to Menaggio is most enchanting the lake the late the late the la

### SWITZERLAND.

Switzerland, the heart of Europe, has been described as "A cluster of delights and grandeurs."

Switzerland, the heart of Europe, has been described as "A cluster of delights and grandeurs."

LUGANO is some 20 miles from Come, and reached by train in one-and-a-half hours. It has a population of 10,000 people and is charmingly situated on the Lake of Lugano, amidst lovely Italian scenery. Around it rise M. San Salvatore, M. de Caprino and Ms. Generoso.

LOCARNO may be reached by rail from Bellinzona in forty minntes. This pretty town, situated at the top of Lake Maggiore, has a mild climate, and is an excellent winter resort. The church Madonna del Seaso, situated above the town, is worth a visit, as it contains interesting paintings. "Entombment," by Giseri, and "The Flight into Egypt," by Bramantion.

LUCERNE.—A striking picture on the Lake of Lucerne facing the Rigi and Pilatus and the snow-clad Alps.

In and around the town the walks are charusing, and the excursions to be made from Lucerne by boat, rail, etc., are very numerous.

The Like of Lucerne abounds in delightful excursions, those to the Rigi, Pilatus, Burgenstock and Somenberg needing a special visit each. Other excursions on the lake can be made by steamer, and the ever changing scenery on the trip from Lucerne to Flucies is a source of delight to the lover of nature.

BRUNNEN, charmingly situated on the most beautiful part of the Lake of Lucerne, commands magnificent views of lake and mountain scenery. Along the Lake of Uri from Brunnen to Fluclen runs the famous Axentrasse.

and from Stansstad it is about 1 hour and
40 min. by Electric Railway, with delightful
scenery en route. The ascent of Titlis, is
made from here, and the panoramic view of
the Alps is grand; extending from Monte
Rosa to the Black Forest, and from the
Santia to the Matterhorn.

Hose to the Black Forest, and from the Säntis to the Matterhorn.

THE BERNESE OBERLAND.—INTERLAKEN a favourite symmer resortand the best centre for making excursions in the Oberland, abounding in fine walks and view. There is a magnificent view of the Jung/rau from the Hoheweg, a fine avenue of walnut trees the chief resort of visitors. Interlaken is also not far from the famous, waterfalls, Giessbach, Trummelbeach and Staubboch. Then also the glaciers of Grindelwald and view from Murren and the Schynige Platte are sights not to be missed.

and the Schynige Platte are signts not to be missed.

CHATEAU D'OEX. 3,500 ft, above the sea on the new Electric Railway between Montreux and Interlaken, surrounded by magnificent reenery, with pure dry air. Much frequented by English people in Summer and Winter.

### GREECE and IONIAN ISLES.

Many people visit Greece after wintering in Egypt, as it is so easily reached from Alexandria; the climate in April is charming. The best steamers are those of the Khedivial Mail Co. and the Russian Staam Navigation Co.

If possible tourists should arrange to be in thens for the Orthodox Easter in order to witness the Good Friday and Easter Eve ceremonies, and to be present at the dancing, on the Easter Treeday festival held at Megars-for which a special train is run from Athens. It is worth while to spend a few days in CORFU on account of the beauty of the scenery. There is also good snipe and quail shooting to be had. mails from the great liner arrived from

Bombay.

These small but comfortable ships have enormously powerful engines, and attain a very high rate of speed. They are called the "Ferry boats," having been specially built to carry the British mail from Port Said to Brindisi. If you are going straight through to Brindisi which will take you to Calais without changing. It has complete arrangements for sleeping and eating on board, and you should arrive in London on the fifth day from leaving Fort Said.
